Description

This Salthouse 72 'Texas lady' has attributes more like a ship than a boat - the volume of this vessel is something you would find on a 40m boat rather than a 22m

Texas lady is in commercial survey for 36 guests and has extensive space throughout 3 indoor and outdoor levels

There are 4 guest cabins and a crew cabin allowing for 13 guests to sleep comfortably and 5 separate bathrooms

The large saloon area has seating for 17 people with two flat screen TVs and Zoned fusion sound system

The commercial Galley has gas stoves, oven, dishwasher, large Samsung fridge and microwave as well as ample storage room

The bridge aft deck has seating for 10 guests as well as large extendable table

The vessel has a fully equipped and modern helm station on the bridge deck which also has indoor lounge areas for 6 guests

The captain can easily manoeuvre with the choice of three fixed helm stations throughout the vessel or use the remote control also aided by the bow and stern thrusters

Powered with twin Caterpillar 3208 turbo charged Diesel engines "Texas Lady" cruises comfortably at 8 - 9 knots with a full speed of 12 knots.

When underway AC Power is supplied by two Seawasp generators one 30kva and the other 14kva

With fuel tanks holding nearly 9000 litres this allowed the vessel to go from Sydney to Fiji and back without refuelling to make her a genuine long range cruiser. To add comfort to your journey the vessel is equipped with 'trac fin' stabilisers

A crane is available on the aft deck to launch your tender when visiting remote beaches

The vessel holds 4000L of water and also has holding tanks for 4000L

There is a washing machine and dryer as well as extra large ice maker in the crew quarters

The main aft deck also has the drop down swim platform for easy access to the water
