Description

The sophisticated design offers the option of three or four cabins including full beam master stateroom with midships king size bed, the option of a galley in the saloon or below decks, an expansive cockpit with large dining table and a garage that can accommodate a 3.2-metre tender. There is even the option of crew quarters or a large storage space forward of the engine room.

The 5800 Sport Yacht design further expands the indoor-outdoor character and sense of light and space introduced on earlier and smaller Sport Yacht models, thus creating a relaxed ambience while entertaining. As this series of boats have grown in size and model numbers they have evolved in technology and design.

The greater volume has allowed designers to take both exterior lines and internal design to a new level of sophistication to create even more visual appeal.

The boat employs revolutionary Volvo Penta IPS propulsion, an integrated system of marine diesel engines and steerable drive units mounted under the hull with twin counter rotating, forward facing, propellers. This superior system offers easy handling and maneuvering even in tight situations and a joystick for easy docking.

With a fuel capacity of 2,650 litres, the efficient drive system helps provide a long cruising range for this boat of about 370 nautical miles at 16 knots @ 2400rpm. Fresh water capacity is 750 litres.
