## Description

The sunreef supreme range embodies a very specific philosophy of yacht creation. It is an audacious line of yachts designed to become the world's most comfortable and spacious range of lifestyle-oriented boats.

The sunreef supreme 68 power is a 68 ft power catamaran with a total living space of 302 sqm offering the surface of a superyacht on a unit below 24 m.

KUKLA's vast 65m<sup>2</sup> saloon enjoys a clever and practical layout. Her central lounge comprises a large c-shaped sofa and a transforming coffee/dining table facing a 78" TV. A discrete full-beam galley occupies the bow part of the interior main deck with plenty of high and low storage along with all the appliances needed to ensure five-star service. The full-height glazing surrounding the saloon allows plenty of sunlight inside whereas the folding doors to the aft and the sides, open the living space onto the exterior for a unique feeling of airiness and freedom. A feeling intensified by the bright and luminous décor combining canyon oak, cream, silver-gray and touches of glossy black.

The saloon blends seamlessly with the cockpit, providing easy access to the stairs down to the aft platforms and garage. The spectacular storage volume not only conceals the tender but also a jet-ski and a wide selection of water toys to keep KUKLA's guests busy and active throughout the day. The garage door, when lowered, levels with the aft platforms to create a relaxing beach club.

The yacht's bow terrace makes the best possible use of the Sunreef Supreme 68's generous 10.5m beam. The teak-clad surface offers lots of space to laze around on the large sun pads. A big awning stretches above the terrace, letting the yacht's guests enjoy a little relief from the sun.

A perfect hostess throughout the day, KUKLA likes to unwind in the evenings, offering her guests an ideal setting for get-togethers. Her easily operated sound system and led lighting set the right mood both inside and out on the deck. KUKLA's immense flybridge is her guests' favorite spot to enjoy drinks and socialize. The massive lounging area features a big sofa, a dining table, a wet bar with a barbeque, a water-proof TV and comfortable mattresses. The yacht's bow terrace houses a Jacuzzi – possibly the best place for a final cocktail at sunrise... For all those who prefer to have a good night's sleep, KUKLA's hulls offer four luxurious cabins including a master suite. All feature TVs, convenient storage and private bathrooms with an elegant quartz finish.

Easily controlled from either of the catamaran's two helms, KUKLA's twin Volvo IPS-800 is a CE category A as well as Malta Commercial Code 2015 classed yacht that enjoys great autonomy (being able to cross the Atlantic sea with her 7,000 liters main Fuel Tank and 2 x 500 liters extra modular tank) but also performance with top speed of 20.5kn (flap installed) when she wants to take her guests away for an exciting cruise.

Feel free to contact Jackson on 0420 322 262 or Jules 0452 554 191 with any further questions or to book a COVID safe inspection.
