Description

New to the market, we are proud to present this New Zealand-built motoryacht ISLA which combines quality craftsmanship, contemporary style, classic elegance, and a flair for adventure into one stylish, 24 metre package.

Designed with the adventurous owner in mind; ISLA is a yacht which will inspire you to explore more widely, cruise new waters, and discover the sights around the next headland, and the next.

The layout has been created to ensure ease of use, plus adaptability for her new owner. Sweeping decks, a full-beam owners suite, and plenty of room for 6-8 guests, plus captain, mean ISLA is a vessel designed to be enjoyed in relaxed comfort.

Newly-launched, she has been created to be capable of stable comfortable cruising, with spaces which invite you to bask in your time with those who mean the most. Her draft allows access to the hidden atolls of New Zealand and the Pacific, while a steel hull delivers the ultimate in stability and sea-kindliness.

Built by a team of expert New Zealand craftsmen, Isla has an LOA of 24m, draft of 1.55m, and fuel capacity of 7000L which gives her a cruising range of 3040NM at 8kn to allow immersion in the southern hemisphere's best cruising grounds.

She achieves top speeds of 17.6 knots, with technical equipment and engine room specified to a commercial standard, and the systems to allow for countless weeks onboard without sacrificing any creature comforts.

The steel-hulled vessel is equipped with four cabins including a full beam owners' suite, and an open salon on the main deck, with a family-style galley to encourage relaxed hospitality and socialising after long days taking in southern hemisphere adventures.

Bringing together cruising capability, a relaxed approach to time onboard, and the ability to take on a multitude of cruising grounds in classically-elegant style, Isla is a yacht unlike anything else on the market. This fully-custom vessel with steel hull for stabilisation and excellent sea-keeping, was built in

Whanga

rei's marine enclave in the experienced hands of Harbourside Boat Works, Marine and Industrial Electrics, Marine and Industrial Rebuilds, with owner representation and project management by JP Marine, and naval architecture by Kevin Dibley.

She has been built to Australian survey (NSCV 1D) and MNZ restricted limits which will open up the opportunity for her new owner to introduce her into the charter market. ISLA's expansive entertainment areas, separate crew quarters and impeccable finish lend her perfectly to high end charter.
