Description

The new addition to the fleet, created to provide the utmost sense of freedom and independence, is a reinterpretation of the celebrated Itama FiftyFive, one of the brand's most popular models. In its standard version the Itama 62 is powered by twin 1400 hp MAN V10 engines, capable of achieving a top speed of 40 knots. Contemporary design, bright interiors and optimal use of space are the innovative features of this new addition to the Itama fleet.

The new mood is evident right from the concealed hydraulic gangway, integrated in the hull, and the swimming platform at the stern, which can be lowered into the water to launch and retrieve the tender. There is also a practical external free-standing shower, which is removable and provides maximum comfort even in open air. Another new feature of this model is the generous cockpit which, in addition to a large sunpad, has an extending outdoor table and a comfortable settee adjoining the helm station, with front-facing seat and chaise longue.

The immediate sensation on going below decks is of great liveability, with a spacious dinette with C-shaped sofa. Opposite this is the galley, equipped to provide maximum comfort for those on board. The airy, nautical-style interiors reflect the classic Mediterranean traditions of the brand's heritage. The dinette table can be lowered to create a fifth bed, so you can always be ready for an extra guest.

The master cabin, in the traditional position at the bow, and the guest cabins in the full-beam aft area, are all roomy and spacious, with large wardrobes, soft carpeting and elegant leather upholstery on the bulkheads and headboard. All the guest cabins have en-suite bathrooms with separate shower compartments, and elegant teak flooring which sets off the light-coloured interiors.
