Description

Twin Diesel shaft drive! Riviera 3000 reduced to sell!!

This Riviera presents extremely well! Being a Riviera you know you are buying a quality Australian built boat.

As you walk onto the rear deck of this Riviera 3000 you can feel the quality that this vessel is built to. One of the main features that this vessel has is the large beam, this improves the stability of the boat plus makes the boat more comfortable and improves the volume of livable space in the boat. Another advantage to this vessel is the twin Turbo Diesel shaft driven Motors making cruising comfortable and affordable! Plus Maintenance free!!

You walk from the large back deck into the cockpit and straight away you will notice the large U-shaped lounge with a strong GRP Table which can sit about 5 people comfortably. You will also notice a minibar on the starboard side with a large 12V fridge for drinks and also a small sink.

All Upholstery is in very good order! The owner has kept covers on covers so nothing has been affected by the sun!

As you walk through the boat to the cabin you will notice that having a larger beam means more room inside the cabin. With improved headroom and also beam this boat would have more volume than any 30ft boat on the market today! In the cabin features another U-shaped lounge on the port side with a queen sized bed in the front of the boat. This vessel has been fitted with a innerspring mattress making your stay for the night feel like you are staying in a five star hotel...

This Vessel has had a lot of expensive options fitted after factory, a large stainless steel BBQ made by southern stainless plus diesel shaft drive engines!

This owner has spent a fortune on her in the last couple of months! over \$20,000!!! List below.

2 x New Turbos
