Description

Our seller's circumstances forces sale!

This is a powerful and graceful seafaring forty foot steel ketch designed by John Pugh and built in 1984 around Lakes Entrance by Shipwright Stuart Campbell.

This 40" Steel ketch named "Tallerk" presents in great condition cosmetically and structurally, as the owners have consistently maintained and serviced her since ownership. Her second owner used "Tallerk" as a live aboard from 2021 until present. She is currently on the hard stand and is ready to be launched for her next bluewater sailing adventure. Due to health reasons, the owner is prepared to accept ALL OFFERS and we would like to achieve a quick sale.

The engine is a English Thornycroft 32hp sparingly used with only 1000hrs

This vessel has been built to a professional standard and maintained to a high standard, if the same maintenance and upkeep is maintained, this should ensure the vessel has a long service life remaining.

The last survey was conducted in Novemeber 2021 and is available upon request.
