## Description

The Sunreef 70 Eco is a fully-customizable luxury craft offering the best of sustainable yachting, supreme comfort, reliable performance and advanced technology. The yacht's hull and superstructure were designed to maximize living space and seaworthiness.

The innovative green tech features of the Sunreef 70 Eco comprise Sunreef Yachts' proprietary solar power system with panels fully integrated in the yacht's hulls, superstructure, mast and boom, covering 143m<sup>2</sup> of surface. Offering record-breaking energy efficiency, the system can deliver up to 35,5kWp and uses the industry's lightest solar power solution. With a density below 5.2kg / kWh, the state-of-the art battery bank is close to 30% lighter than the systems commonly used in the yachting world.

With close to 290m<sup>2</sup> for guests to enjoy, the yacht offers an infinite variety of layouts and décors. The catamaran's alfresco dining and lounging spaces include a superyacht flybridge, a vast bow terrace and a large stern cockpit merging with the panoramic main deck saloon.
