Description

The Sunreef 80 Eco is an eco-responsible luxury craft combining electric propulsion, superyacht living spaces, reliable sailing performance and the latest green technologies in the industry. Thanks to Sunreef Yachts' proprietary [solar power system](#), the Sunreef 80 Eco can generate up to 45,5kWp.

Covering a total area of 164m² solar panels can be integrated with various composite structures of the yacht including the mast, boom, superstructure and hull sides. The luxury catamaran is fitted with a state of the art, ultralight battery bank (30% lighter than the average batteries used in the nautical industry) with a density of less than 5.2kg / kWh for increased weight-efficiency and performance. A fully customizable luxury craft, the Sunreef 80 Eco catamaran offers infinite décor possibilities and access to a broad selection of ethically-sourced and eco-responsible finishing materials
