Description

Blending the best of monohull dynamics with multihull living space, and shallow draft, the Sunreef 88 ULTIMA rewrites the rules of luxury yachting with a new type of marine architecture. With a sleek and sporty hull, she guarantees easy access to any marina. Her advanced design reduces drag for enhanced performance and energy-efficiency. She creates a category of her own, surpassing any rival on the horizon with speed, comfort and sustainability. No fumes, no vibration, no trace.

The Sunreef 88 ULTIMA plays by her own rules by cruising in full harmony with the elements. Her light—filled interiors use sustainable woods, recycled plastics and reclaimed fabrics. The living and lounging areas were designed to reduce artificial lighting and air conditioning.

When it's time to play, ULTIMA opens her bulwark platforms and aft garage to unlock new levels of fun with a fleet of electric toys and a walkaround Ocean Lounge.

Combining custom-engineered batteries with hybrid propulsion and an industry-first solar skin system, she outperforms any yacht in her range with unrivaled energy efficiency.

Sunreef Yachts green hi-tech solutions have earned a reputation of excellence around the world with numerous international awards. Experience thrill, luxury and supreme comfort on a zero-emission cruise.
